Celsa Nordic, (CELSA Group) THE FIRST CIRCULAR SUPPLY CHAIN

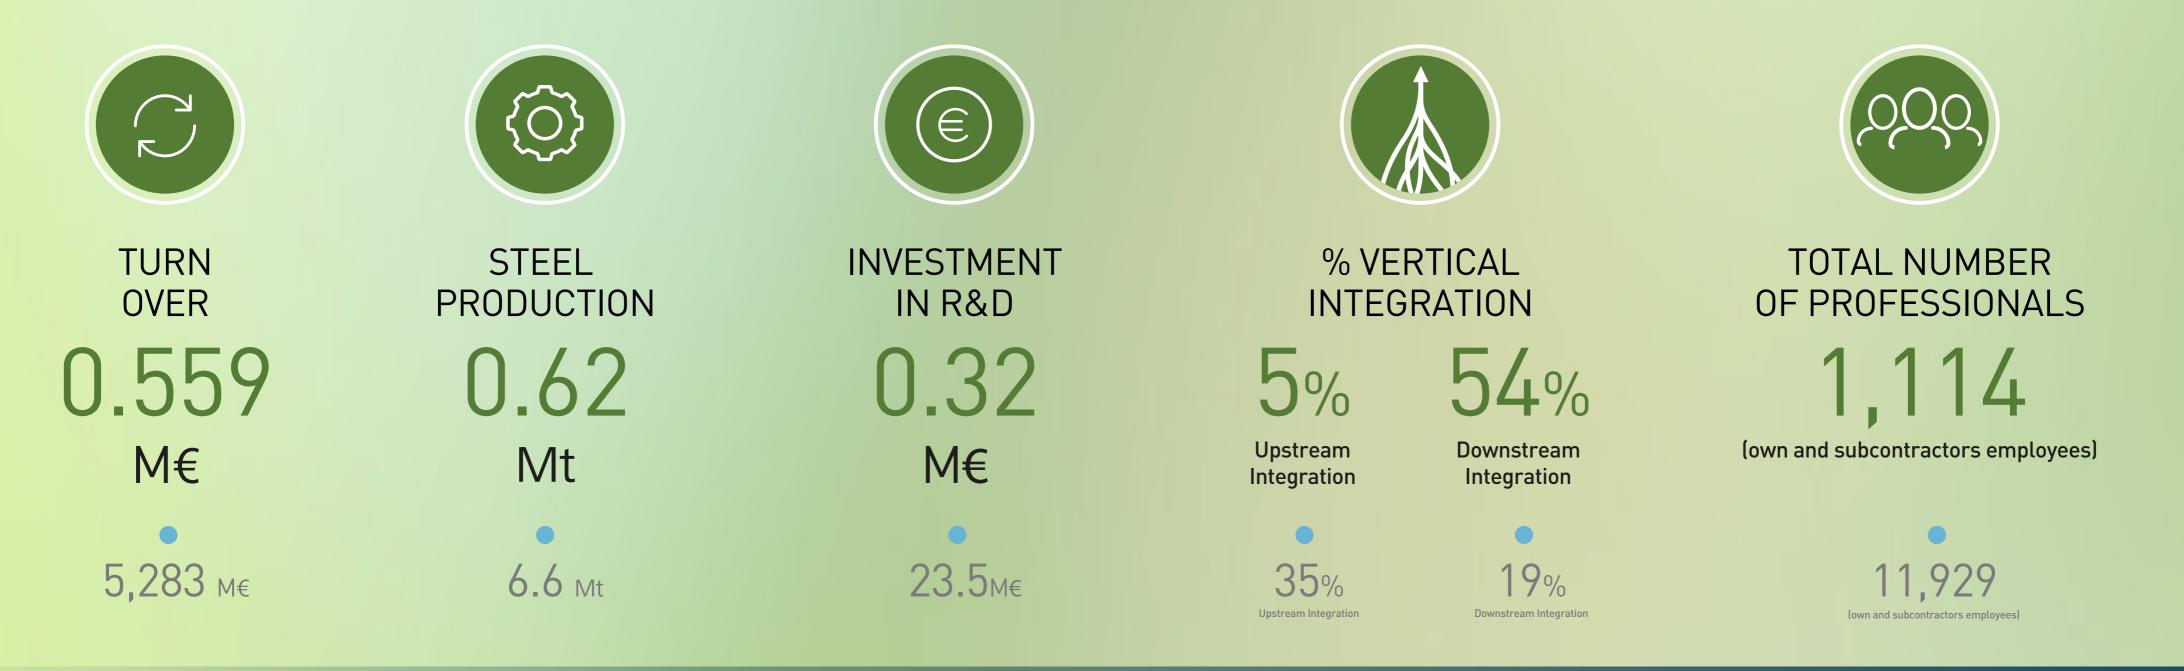

We produce circular and low-carbon steel from scrap and using the electric furnace technology. We aim to be Net Positive by 2050, driven by the sustainable development goals and focusing on six of them. Our Sustainability Roadmap 2021-2050 is fully integrated into the business strategy.

OUR YEAR IN FIGURES

We are second manufacturer of long steel products in Europe and the most diversified and vertically integrated European producer.

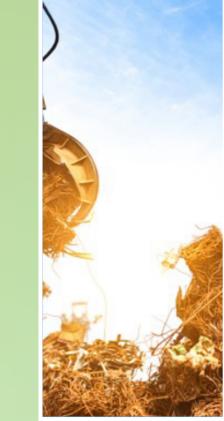

1. WE ARE CIRCULAR

We are an integrated group with a completely circular industrial process

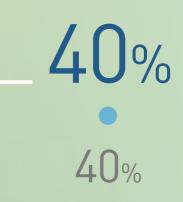

of the final product is made of recycled steel

of total waste recovered

94%

of water consumption reduction by manufacturing with scrap instead of iron ore

2. COMMITTED TO CLIMATE

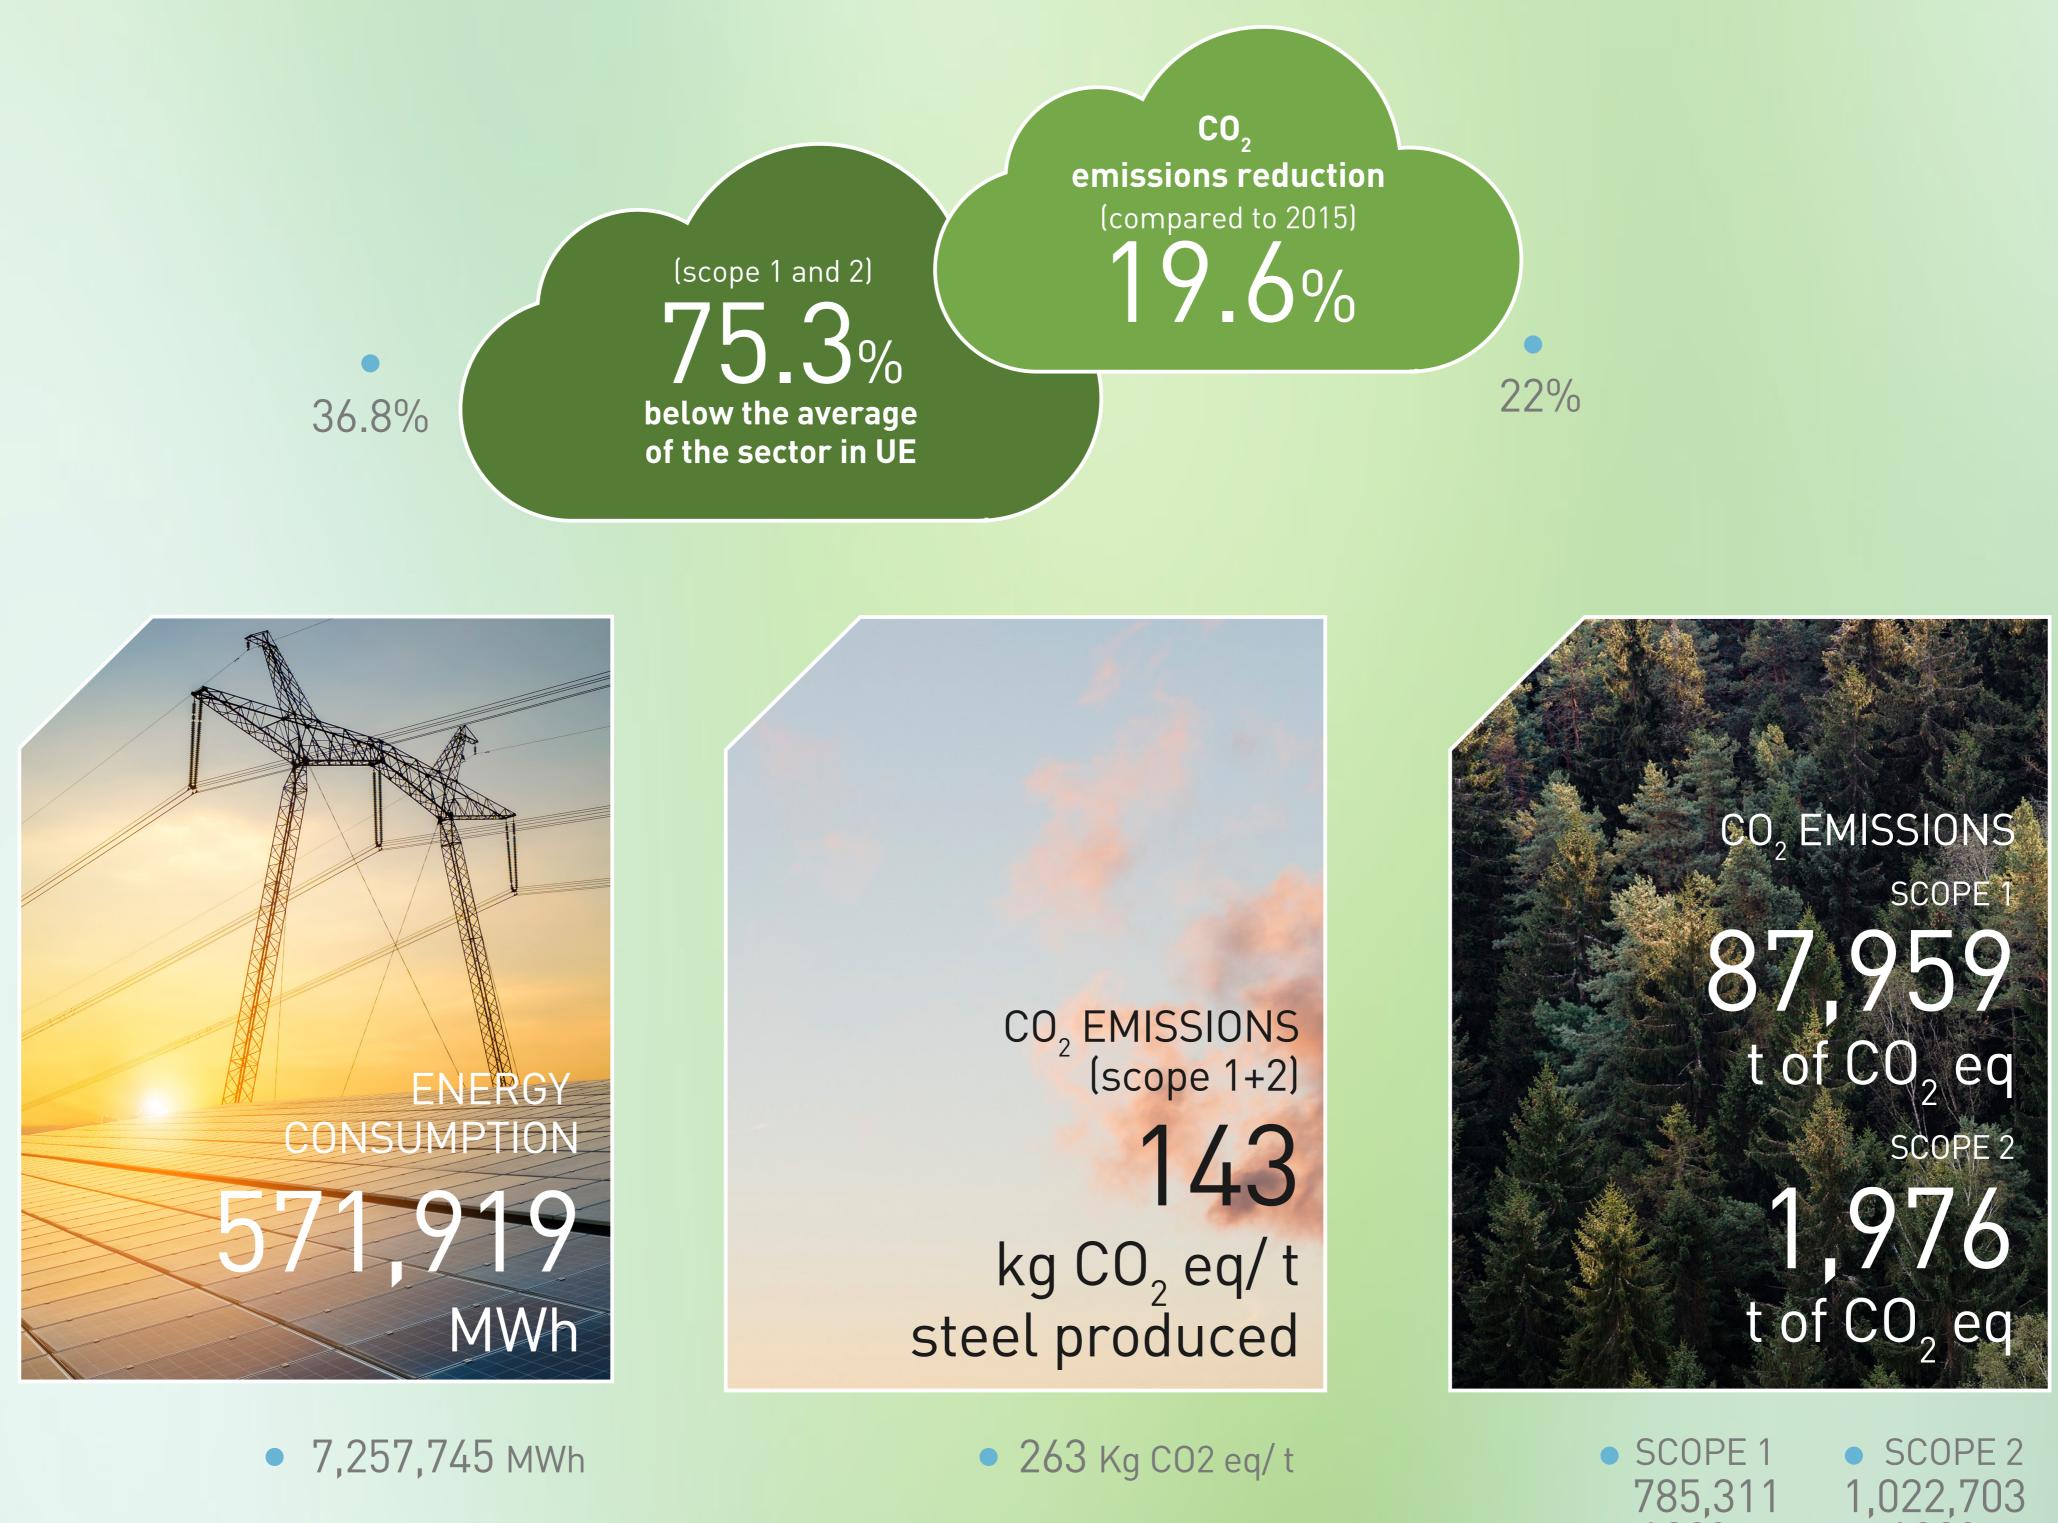

We work to be a Net positive company by 2050

The activity carried out in our steel mills in Spain, France, Poland, and Norway is elegible as an activity included in the EU Taxonomy of Climate Change Mitigation for steelmaking.

t of CO2 eq

3. COMMITED TO PEOPLE & THE LOCAL COMUNITY

Our priority is the safety and health of our professionals. Goal: to become zero accidents company

of purchases made from local suppliers in territories with presence

4. PLANET ANNUAL SAVINGS ACHIEVED THANKS TO THE CIRCULAR AND LOW EMISSIONS

The emission of 1.24 million tons of CO_2

comparable to those generated by 0.27 million cars running for a year (24/7)

> **12** Mt

The consumption of

> 1,334 GWh/year of electricity

the equivalent of the consumption of a city of 0.4 million inhabitants in a year

16,700 GWh/year

The consumption of 2.11

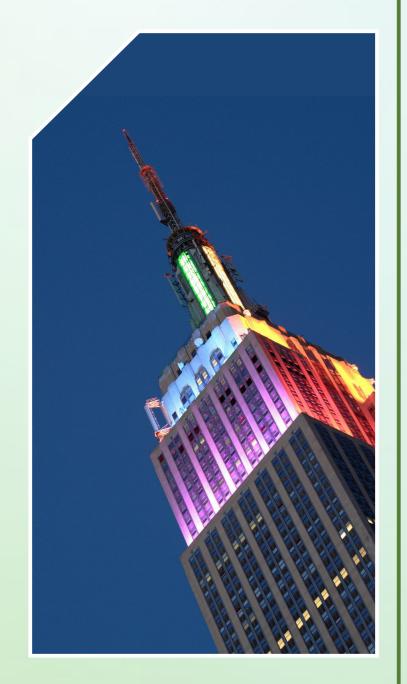

million m³ of water

which is comparable to a city of 43,371 inhabitants in a year

17Mm³

1.23 million m³ of natural resources

equivalent to 1.2 Empire State Buildings

> 13.1Mm³
